

GRATING PANEL FM

Grating panels designed specifically for Clean Room applications: they are designed for the areas where maximum air flow is required and have grid patterns which generate minimum vibration from rolling loads and foot traffic.

KEY FEATURES

- Dimensions: 600x600x41
- Weight: 12 kg

SKU: N/A

PRODUCT DESCRIPTION

Loading Test

- Ultimate Load: >30KN - Centre point
- Concentrated Load: >15KN - Centre point
- Deformation Class: $\leq 2,5$ mm (Class A) - Centre point

Tolerances

- Class 1 - ISO 12825_2003
