

GRATING PANEL NP

Grating panels designed specifically for Clean Room applications: they are designed for the areas where maximum air flow is required and have grid patterns which generate minimum vibration from rolling loads and foot traffic.

KEY FEATURES

- Composition: Aluminum die casting
- Dimensions: 600x600
- Thickness: 50 \pm 0,3mm
- Weight: 11 kg
- Open Ration: >50%

SKU: N/A

PRODUCT DESCRIPTION

Loading Test

- Ultimate Load: 3.500 kg (at Center of panel)*
- Concentrated Load: 1.750 kg (at Center of panel)*
- Ultimate Load: 3.000 kg (at 1/2 Edge)
- Concentrated Load: 1.500 kg (at 1/2 Edge)

*= Load must be distributed over an area greater than 260 m²

Possible Covering

- Epoxy Coating 10 μ - 10 μ Ω
- Shotblasting
